07 July 2009

Dear Mr Williams

I'd like to thank you for your donation of £50.00 in solidarity with people in the Philippines who are already suffering the effects of climate change. With your support, we can keep up the pressure on our government to recognise the threat which our emissions pose to the world's poorest people.

Thanks to people like you, we now have a Climate Change Law and Ed Miliband has promised an end to 'unabated' coal in the UK. Now we must push the government to move away from coal completely. With your support we will push International Development secretary Douglas Alexander to recognise climate change as one of the biggest threats to the development opportunities of poor countries.

For the UK to have any authority in calling for decisive action on climate change at the climate talks in Copenhagen in December we must abandon dirty coal. It is the UK's responsibility as one of the countries who have made the biggest historical contribution to climate change to take the lead. It is a justice issue as it is poor countries like the Philippines who will feel the effects the hardest. Your support is helping us to fight for climate justice and a sustainable future.

To follow the progress of the climate campaign and other campaigns led by the World Development Movement, visit our website for the latest news - www.wdm.org.uk/campaigns.

Once again please accept our thanks for your generous support.

Best wishes

Deborah Doane
Director
